Project Officer Proposal P1046
Food Standards Australia New Zealand
PO Box 10559
The Terrace
WELLINGTON 6036

Dear Sir/Madam

Urgent Proposal P1046 – Assessment of the Variation

Thank you for the opportunity to comment on this proposal.

Question to submitters

1. Do you agree that the variation to Schedules 3 and 29 on the use of, and specification for, L-arginine acetate in FSMP should be re-affirmed? Please state your reasons.

The Ministry for Primary Industries (MPI) agrees that the variation to Schedules 3 and 29 on the use of, and specification for, L-arginine acetate in FSMP should be re-affirmed. We are satisfied that the use of L-arginine acetate in FSMP does not present a public health or safety concern and that FSANZ has adequately addressed submitters' concerns as per the Final consideration report – Urgent Proposal P1046 dated 14 September 2017.
