**P1063: Code revision (2024) – Added sugar(s) claims  
Submission from Public Health and Consumer Organisations**

The below public health and consumer organisations support the code revisions set out in P1063 to:

- amend section S4—3 of the Code to correct the typographical error; and
- remove the term 'sugars\*' from the Code as that term is now redundant as a result of the amendments made by Proposal P1062.
