

Food Standards Work Plan –proposed standards development and variations to standards for applications and proposals

Information is current as of 20 August 2024

The Food Standards Work Plan provides visibility on the progress of applications and proposals to develop standards or variations to standards in the Australia New Zealand Food Standards Code. FSANZ is required to update this work plan at least every 3 months under the *Food Standards Australia New Zealand Act 1991* (FSANZ Act).

Estimated and current timelines for consultation on applications and proposals are included in this work plan. When consultation begins, FSANZ provides public notification on the website. You can subscribe to receive FSANZ's Notification Circular which includes notices that are required to be given to the public, submitters and appropriate government agencies under the FSANZ Act, including calls for submissions.

Applications and proposals are placed on the work plan after they are publicly notified. Their details are updated as the application or proposal progresses through the standards development process. Under the FSANZ Act, applicants can choose to pay fees to bring forward the start of the assessment of their application. However, FSANZ's consideration of a paid application must not displace an unpaid application or proposal in the workplan.

If you have any questions about the work plan please contact the Standards Management Officer, standards.management@foodstandards.gov.au.

Refer to the notes at the end of the work plan for further details on the content of the work plan, including application and proposal processes.

Application	Administrative assessment	Stage in standards development process	Commencement date - estimated at administrative assessment	Current date – once assessment commences	Completion date	Comments
A1247: D-allulose as a novel food Applicant Samyang Corporation Description To permit D-allulose manufactured by an enzymatic conversion of fructose to D-allulose using <i>Microbacterium foliorum</i> SYG27B-MF containing allulose-3-epimerase. Paid application	Application received 16 November 2021 Administrative assessment completed. Decision to accept application: 07/12/2021	Commence assessment (clock start)	Early January 2022	Early January 2022	04/01/2022	Stop Clock applied 11/05/2022 until 14/11/2022 under S108 of the FSANZ Act.
		Call for submissions	Early June 2022	Late May – Mid July 2023	8/11/2023 – 20/12/2023	
		Board to complete Approval	Mid-September 2022	Early August 2024	7/08/2024	
		Statutory due date (for approval)	Not known until assessment start	14/04/2023	Statutory due date not met	
		Notification to Food Ministers' Meeting	Late September 2022	Mid-August 2024	19/08/2024	
		Anticipated gazettal if no review requested	Mid December 2022	Late October 2024		

Application	Administrative assessment	Stage in standards development process	Commencement date – estimated at administrative assessment	Current date – once assessment commences	Completion date	Comments
A1260: 2-methyloxolane as a processing aid Applicant Pennakem Europa, France Description To permit 2-methyloxolane as an extraction solvent processing aid. Unpaid application	Application received 8 September 2022 Administrative assessment completed. Decision to accept application: 05/10/2022	Commence assessment i.e. clock start	Early October 2023	Late November 2023	21/11/23	Stop clock applied 19/12/2023 until 21/02/2024 under S108 of the FSANZ Act.
		Call for submissions	Early January – mid February 2024	Mid July – end August 2024		
		Board to complete Approval	Early June 2024	Late October 2024		
		Statutory due date (for approval)	Not known until assessment start	21/11/2024		
		Notification to Food Ministers' Meeting	Mid June 2024	Early November 2024		
		Anticipated gazettal if no review requested	Late August 2024	Mid January 2025		

Application	Administrative assessment	Stage in standards development process	Commencement date – estimated at administrative assessment	Current date – once assessment commences	Completion date	Comments
A1269: Cultured Quail as a novel food Applicant Vow Group Pty Ltd Description To permit Vow cultured Quail as a novel food Paid application	Application received 24 January 2023	Commence assessment i.e. clock start	Late February 2023	Late February 2023	21/02/2023	Stop Clock applied 15/05/2023 until 15/06/2023 under S108 of the FSANZ Act.
	Administrative assessment completed.	1 st Call for submissions	Late August 2023	Mid December 2023 – Mid February 2023	11/12/2023 – 05/02/2024	
	Decision to accept application: 16 February 2023	2 nd Call for submissions	Early December 2023	Late August – Early October 2024		
		Board to complete approval	Late February 2024	Early December 2024		
		Statutory due date (for approval)	Not known until assessment start	21/09/2024		
		Notification to Food Ministers' Meeting	Early March 2024	Mid December 2024		
		Anticipated gazettal if no review requested	Mid May 2024	Late February 2025		

Application	Administrative assessment	Stage in standards development process	Commencement date – estimated at administrative assessment	Current date – once assessment commences	Completion date	Comments
<p>A1279: Lentinula edodes (Shiitake mushroom) mycelia as a processing aid</p> <p>Applicant MycoTechnology Inc.</p> <p>Description: To permit Lentinula edodes mycelia for use as a processing aid in the fermentation of pea and rice protein to produce a protein ingredient to be added to various foods.</p> <p>Unpaid application</p>	<p>Application received 23 June 2023</p> <p>Administrative assessment completed.</p> <p>Decision to accept application: 13 July 2023</p>	Commence assessment i.e. clock start	Late July 2024	Late July 2024	31 July 2024	
		Call for submissions	Late Nov 2024 – Late Jan 2025	Mid November 2024 – Late December 2024		
		Board to complete Approval	Late April 2025	Late April 2025		
		Statutory due date (for approval)	Not known until assessment start	30 April 2025		
		Notification to Food Ministers' Meeting	Early May 2025	Early May 2025		
		Anticipated gazettal if no review requested	Mid July 2025	Mid July 2025		

Application	Administrative assessment	Stage in standards development process	Commencement date – estimated at administrative assessment	Current date – once assessment commences	Completion date	Comments
<p>A1284: Triacylglycerol lipase from GM <i>Trichoderma reesei</i> as a processing aid</p> <p>Applicant AB Enzymes GmbH</p> <p>Description This application seeks permission for triacylglycerol lipase from a genetically modified strain of <i>Trichoderma reesei</i> to be used as a processing aid in baking and cereal-based processes.</p> <p>Paid application</p>	<p>Application received 12 September 2023</p> <p>Administrative assessment completed.</p> <p>Decision to accept application: 29 September 2023</p>	Commence assessment i.e. clock start	Early October 2024	Early October 2024	10/11/2023	
		Call for submissions	Early February – Mid March 2025	Late February - Early April 2024	6/03/2024 – 17/04/2024	
		Board to complete Approval	Early July 2025	Early August 2024	7/08/2024	
		Statutory due date (for approval)	Not known until assessment start	12/08/2024	Statutory due date met	
		Notification to Food Ministers' Meeting	Mid July 2025	Mid August 2024	19/08/2024	
		Anticipated gazettal if no review requested	Late September 2025	Late October 2024		

Application	Administrative assessment	Stage in standards development process	Commencement date – estimated at administrative assessment	Current date – once assessment commences	Completion date	Comments
<p>A1287: Food derived from short-stature corn line MON94804</p> <p>Applicant Bayer CropScience Pty Ltd</p> <p>Description To seek approval for the sale and use of food derived from corn line MON94804, genetically modified to have reduced overall plant height.</p> <p>Paid application</p>	<p>Application received 29 September 2023</p> <p>Administrative assessment completed.</p> <p>Decision to accept application: 19 October</p>	Commence assessment i.e. clock start	Mid-November 2023	Late October 2023	31/10/2023	
		Call for submissions	Mid March – Late April 2024	Mid March – Late April 2024	19/03/202 – 30/04/2024	
		Board to complete Approval	Early August 2024	Late July 2024	24/07/2024	
		Statutory due date (for approval)	Not known until assessment start	31/07/2024	Statutory due date met	
		Notification to Food Ministers' Meeting	Mid August 2024	Mid August 2024	1/08/2024	
		Anticipated gazettal if no review requested	Late October 2024	Late October 2024		

Application	Administrative assessment	Stage in standards development process	Commencement date – estimated at administrative assessment	Current date – once assessment commences	Completion date	Comments	
<p>A1289: Food derived from disease-resistant, low-reducing sugars and reduced browning potato line BG25.</p> <p>Applicant SPS International Inc.</p> <p>Description To seek approval for the sale and use of food derived from potato line BG25, genetically modified to have disease-resistance, low-reducing sugars and reducing browning.</p> <p>Paid application</p>	Application received 12 December 2023	Commence assessment i.e. clock start	Mid February 2024	Mid February 2024	14/02/2024		
		Administrative assessment completed.	Call for submissions	Mid July – Late August 2024	Early July – Mid August 2024	18/07/2024 – 29/08/2024	
	Decision to accept application: 12 January 2024	Board to complete Approval	Late October 2024	Late October 2024			
		Statutory due date (for approval)	Not known until assessment start	14/11/2024			
		Notification to Food Ministers' Meeting	Early November 2024	Early November 2024			
		Anticipated gazettal if no review requested	Mid January 2025	Mid January 2025			

Application	Administrative assessment	Stage in standards development process	Commencement date – estimated at administrative assessment	Current date – once assessment commences	Completion date	Comments
<p>A1291: Glucoamylase from GM <i>Aspergillus niger</i> (gene donor: <i>Gloeophyllum sepiarium</i>) as a processing aid</p> <p>Applicant Novozymes Japan Ltd.</p> <p>Description To permit glucoamylase from <i>Aspergillus niger</i> to be used as a processing aid in brewing process, baking processes, starch processing and distilled alcohol processing.</p> <p>Paid application</p>	<p>Application received 2 January 2024</p> <p>Administrative assessment completed.</p> <p>Decision to accept application: 23 January 2024</p>	Commence assessment i.e. clock start	Late January 2025	Early March 2024	6/03/2024	
		Call for submissions	Late May – Early July 2025	Late August – Early October 2024		
		Board to complete Approval	Late Oct 2025	Late October 2024		
		Statutory due date (for approval)	Not known until assessment start	5/12/2024		
		Notification to Food Ministers' Meeting	Early November 2025	Mid November 2024		
		Anticipated gazettal if no review requested	Mid February 2026	Late January 2025		

Application	Administrative assessment	Stage in standards development process	Commencement date – estimated at administrative assessment	Current date – once assessment commences	Completion date	Comments
A1299: Fructosyltransferase from GM <i>Aspergillus oryzae</i> as a processing aid Applicant Novozymes Japan Ltd. Description To permit fructosyltransferase from genetically modified <i>Aspergillus oryzae</i> as a processing aid for the production of short-chain fructooligosaccharides (sc-FOS). Paid application	Application received 2 April 2024	Commence assessment i.e. clock start	Early-May 2024	Early May 2024	10/05/2024	
	Administrative assessment completed.	Call for submissions	Early-Sep – Late Oct 2024	Early-Sep – Late Oct 2024		
	Decision to accept application: 19 April 2024	Board to complete Approval	Early Feb 2025	Early Feb 2025		
		Statutory due date (for approval)	Not known until assessment start	20/03/2025		
		Notification to Food Ministers' Meeting	Mid Feb 2025	Mid Feb 2025		
		Anticipated gazettal if no review requested	Late April 2025	Mid May 2025		

Application	Administrative assessment	Stage in standards development process	Commencement date – estimated at administrative assessment	Current date – once assessment commences	Completion date	Comments
<p>A1300 Vitamin K2 (as Menaquinone-7) as a permitted form of Vitamin K in FSMP.</p> <p>Applicant Novozymes Australia Ltd.</p> <p>Description To permit the use of Vitamin K2 (Menaquinone-7) as a permitted form of Vitamin K in food for special medical purposes (FSMP).</p> <p>Paid application</p>	Application received 2 April 2024	Commence assessment i.e. clock start	Late-May 2024	Late May 2024	22/05/2024	
	Administrative assessment completed. Decision to accept application: 19 April 2024	Call for submissions	Early Sep 2024	Early Sep 2024		
		Board to complete Approval	Early Feb 2025	Late Feb 2025		
		Statutory due date (for approval)	Not known until assessment start	24/02/2025		
		Notification to Food Ministers' Meeting	Mid Feb 2025 5	Mid Feb 2025		
		Anticipated gazettal if no review requested	Mid May 2025	Mid May 2025		

Application	Administrative assessment	Stage in standards development process	Commencement date – estimated at administrative assessment	Current date – once assessment commences	Completion date	Comments
<p>A1301: Triacylglycerol lipase from GM <i>Komagataella phaffii</i> as a processing aid</p> <p>Applicant Danstar Ferment AG, an affiliate of Lallemand Inc.</p> <p>Description To permit triacylglycerol lipase from genetically modified <i>Komagataella phaffii</i> as a processing aid in bread and bakery products.</p> <p>Paid application</p>	<p>Application received 9 April 2024</p> <p>Administrative assessment completed.</p> <p>Decision to accept application: 29 April 2024</p>	Commence assessment i.e. clock start	Early-May 2024	Mid May 2024	13/05/2024	
		Call for submissions	Late-Aug – Early Oct 2024	Late-Aug – Early Oct 2024		
		Board to complete Approval	Early Feb 2025	Early Feb 2025		
		Statutory due date (for approval)	Not known until assessment start	13/02/2025		
		Notification to Food Ministers' Meeting	Mid Feb 2025	Mid Feb 2025		
		Anticipated gazettal if no review requested	Early May 2025	Early May 2025		

Application	Administrative assessment	Stage in standards development process	Commencement date – estimated at administrative assessment	Current date – once assessment commences	Completion date	Comments
<p>A1302: Food derived from insect-protected corn line MZIR260</p> <p>Applicant Syngenta Australia Pty Ltd</p> <p>Description To seek approval for the sale and use of food derived from corn line MZIR260, genetically modified for protection from insect pests.</p> <p>Paid application</p>	<p>Application received 8 May 2024</p> <p>Administrative assessment completed.</p> <p>Decision to accept application: 30 May 2024</p>	Commence assessment i.e. clock start	Late June 2024	Late June 2024	12/06/2024

Proposal	Administrative assessment	Stage in standards development process	Current date– once assessment commences	Completion date	Comments
P1056 Caffeine Review Description Review of permissions for caffeine in sports foods and general foods and consideration of the risk it poses to sensitive subpopulations.	Proposal prepared. Decision to prepare proposal: 14/12/2020	Commence assessment (clock start)	Early June 2021	01/06/2021	
		1 st Call for submissions	Mid December 2022	19/12/2022 – 13/02/2023	
		2 nd Call for submissions	Late October 2024		
		Board to complete Approval	TBC		
		Notification to Food Ministers' Meeting	TBC		
		Anticipated gazettal if no review requested	TBC		

Proposal	Administrative assessment	Stage in standards development process	Current date – once assessment commences	Completion date	Comments
P1058 Nutrition labelling about added sugars Description To consider including added sugars information in the nutrition information panel.	Proposal prepared.	Commence Assessment (Clock start)	Mid April 2022	14/04/2022	
	Decision made to prepare proposal: 14/04/2022	Call for submissions	TBC		Work underway on consumer testing and research.
		Board to complete Approval	TBC		
		Notification to FMM	TBC		
		Anticipated gazettal if no review requested	TBC		

Proposal	Administrative assessment	Stage in standards development process	Current date – once assessment commences	Completion date	Comments
<p>M1022 Maximum Residue Limits (2023)</p> <p>Description To consider varying certain maximum residue limits (MRLs) for residues of specified agricultural and veterinary (agvet) chemicals that may occur in food commodities.</p>	<p>Proposal prepared.</p> <p>Decision made to prepare proposal: 3/07/2023</p>	Commence Assessment (Clock start)	04/12/2023	04/12/2023	
		Call for submissions	Early July – Late August 2024		
		Board to complete Approval	Early December 2024		
		Notification to FMM	Mid December 2024		
		Anticipated gazettal if no review requested	Late February 2025		

Proposal	Administrative assessment	Stage in standards development process	Current date– once assessment commences	Completion date	Comments
<p>P1059 Energy labelling on alcoholic beverages</p> <p>Description To consider amending the Code to provide energy (kilojoule) labelling information on alcoholic beverages.</p>	<p>Proposal prepared. Decision to prepare proposal: 27/04/2022</p>	Commence assessment (clock start)	27 April 2022	27/04/2022	
		Call for submissions	Mid January – Late February 2023	16/01/2023 – 20/03/2023	Targeted consultation held late July 2022 and late November 2023.
		Board to complete Approval	Early December 2024		
		Notification to Food Ministers' Meeting	Mid December 2024		
		Anticipated gazettal if no review requested	Late February 2025		

Proposal	Administrative assessment	Stage in standards development process	Current date – once assessment commences	Completion date	Comments
P1060 Egg Food Safety & Primary Production Requirements Description To consider amending the Australia New Zealand Food Standards Code to provide new and/or amended food safety and primary production requirements for eggs and egg products	Proposal prepared. Decision made to prepare proposal 20/05/2022	Commence assessment (clock start)	Late May 2022	20/05/2022	
		Call for submissions	4 th quarter 2024		
		Board to complete Approval	2 nd quarter 2025		
		Notification to Food Ministers' Meeting	2 nd quarter 2025		
		Anticipated gazettal if no review requested	3 rd quarter 2025		

Proposal	Administrative assessment	Stage in standards development process	Current date – once assessment commences	Completion date	Comments
P1063 Code Revision (2024) – Added Sugar(s) Claims Description To amend the Code to remove “sugars”, and amend the table entry dealing with “Sugar or sugars” in section S4-3.	Proposal prepared. Decision made to prepare proposal 23/04/2024	Commence assessment (clock start)	Late April 2024	23/04/2024	
		Call for submissions	Late May – Late June 2024	31/05/2024 – 27/06/2024	
		Board to complete Approval	Early August 2024	7/08/2024	
		Notification to Food Ministers' Meeting	Mid August 2024	19/08/2024	
		Anticipated gazettal if no review requested	Late October 2024		

Applications and proposals approved from 1 July 2024 – 30 June 2025

Application / Proposal	Applicant	Description	Date considered by FSANZ Board	Outcome
A1247 D-allulose as a novel food	Samyang Corporation	To permit D-allulose manufactured by an enzymatic conversion of fructose to D-allulose using <i>Microbacterium foliorum</i> SYG27B-MF containing allulose-3-epimerase.	7/08/2024	Approved
A1284 Triacylglycerol lipase from GM <i>Trichoderma reesei</i> as a processing aid	AB Enzymes GmbH	This application seeks permission for triacylglycerol lipase from a genetically modified strain of <i>Trichoderma reesei</i> to be used as a processing aid in baking and cereal based products.	7/08/024	Approved
P1063 Code Revision (2024) – Added Sugar(s) Claims	N/A - FSANZ	To amend the Code to remove “sugars”, and amend the table entry dealing with “Sugar or sugars” in section S4-3.	7/08/2024	Approved
A1287 Food derived from short-stature corn line MON94804	Bayer CropScience Pty Ltd.	To seek approval for the sale and use of food derived from corn line MON94804, genetically modified to have reduced overall plant height.	24/07/2024	Approved
P1028 Infant Formula	N/A - FSANZ	Infant Formula reviewed the regulatory requirements for infant formula products in the Australia New Zealand Food Standards Code (the Code).	4/06/2024	Approved

Applications gazetted from 1 July 2024 – 30 June 2025

Application / Proposal	Applicant	Description	Date gazetted
A1261 Irradiation – increase in maximum energy level	Steritech Pty Ltd	To increase the maximum permitted energy level of machines generating X-rays for irradiating food from 5 to 7.5 megaelectronvolts provided that the X-ray target is made of tantalum or gold.	15/08/2024
A1281 Food derived from herbicide-tolerant and insect-protected corn line DP910521	Corteva Agriscience Australia Pty Ltd	To seek approval for the sale and use of food derived from corn line DP910521 genetically modified for herbicide tolerance and protection from insect pests.	15/08/2024
A1282 Subtilisin from GM <i>Bacillus subtilis</i> as a processing aid	Danisco Australia (IFF)	To permit the use of subtilisin from genetically modified <i>Bacillus subtilis</i> as a processing aid. The intended use is for protein processing. Typical processes which may employ subtilisin include baking, dairy, egg, meat and fish processing.	15/08/2024
A1283 2'-FL from GM <i>Corynebacterium glutamicum</i> in infant formula products	Advanced Protein Technologies Corp.	To permit a new genetically modified source organism <i>Corynebacterium glutamicum</i> for the production of 2'-Fucosyllactose (2'-FL) for use in infant formula products.	15/08/2024
A1257 Australian native bee honey	Australian Native Bee Association	To include a definition, compositional requirements and a requirements for a prescribed name for honey produced by stingless bees native to Australia.	22/07/2024
A1280 Food derived from herbicide-tolerant and insect-protected corn line DAS1131	Corteva Agriscience Australia Ltd	To seek approval for the sale and use of food derived from corn line DAS1131, genetically modified for herbicide-tolerance and protection from insect pests.	22/07/2024

Proposals gazetted from 1 July 2024 – 30 June 2025

Proposal	Description	Date Gazetted

Unpaid applications – assessment waiting to commence

Application	Applicant	Description	Anticipated commencement
A1288 Thermolysin from Anoxybacillus caldiproteolyticus Rokko as a processing aid	IFF Australia Pty Ltd	To permit thermolysin from Anoxybacillus caldiproteolyticus Rokko as a processing aid for protein hydrolysis.	Mid December 2024
A1292 Phospholipase C from GM Bacillus licheniformis as a processing aid	Novozymes Japan. Ltd.	To permit Phospholipase C from GM <i>Bacillus licheniformis</i> as a processing aid in degumming of fats and oils.	Late January 2025
A1293 Phosphoinositide PLC from GM Bacillus licheniformis as a processing aid	Novozymes Japan Ltd.	To permit Phosphoinositide PLC from GM <i>Bacillus licheniformis</i> as a processing aid in degumming of fats and oils.	Mid February 2025
A1294 Moringa oleifera as a novel food	Noosa Organics Pty Ltd	To permit the sale of <i>Moringa oleifera</i> leaf (fresh and dried), immature (green) pods and seed oil as food and food ingredients in Australia and New Zealand.	Late February 2025
A1304 Endo-1,4-beta-xylanase from GM Bacillus licheniformis (gene donor: Chryseobacterium cucumeris) as a processing aid	Novozymes Australia Pty Ltd	To permit endo-1,4-beta-xylanase from a genetically modified strain of <i>Bacillus licheniformis</i> to be used as a processing aid in the production of distilled alcohol and starch and gluten fractions.	Late June 2025
A1305 Alpha-amylase (protein engineered) from GM Bacillus licheniformis as a processing aid	IFF Austyralia Pty Ltd	To permit alpha-amylase (protein engineered) from a genetically modified strain of <i>Bacillus licheniformis</i> to be used as a processing aid in carbohydrate processing to produce glucose syrups and other starch hydrolysates in potable alcohol production.	Early July 2025

A1306 Chitosan from <i>Agaricus bisporus</i> as a processing aid	AB Biotek	To permit a new source microorganism <i>Agaricus bisporus</i> for chitosan to be used as a processing aid for wine, beer, cider, spirits and other alcoholic beverages.	Mid July 2025
-------------------------------------------------------------------------	-----------	-------------------------------------------------------------------------------------------------------------------------------------------------------------------------	---------------

Applications and proposals withdrawn, rejected, abandoned from 1 July 2024 – 30 June 2025

Application / Proposal	Applicant	Description	Date publicly notified withdrawn, rejected, abandoned
A1290 Citicoline as a nutritive substance for use in formulated caffeinated beverages	Kyowa Hakki Bio Co. Ltd.	To permit the addition of citicoline as a nutritive substance for addition to formulated caffeinated beverages.	12/08/2024

Notes – application and proposal work plan details

Application or Proposal – Applications are formal requests to amend the Australia New Zealand Food Standards Code (the Code). Proposals are prepared by FSANZ to consider amendments to the Code. Each application or proposal is allocated a sequential identification number. Applications commence with an 'A' whilst proposals commence with either a 'P' or 'M' (maximum residue limits).

Description – General description of the purpose of the application or proposal.

Urgent applications or proposals – Section 95 applications and proposals can be declared urgent under Division 4 of the FSANZ Act. Under these provisions, FSANZ is required to assess the variation to the Code within 12 months of the date of effect of the gazetted variation. FSANZ may then either re-affirm its original decision or prepare a proposal for a further variation or replacement variation.

Procedure – the procedure that applies to an application or proposal is determined at the administrative assessment stage and is based on the estimated maximum number of hours to complete the assessment for an application or proposal. See Part 2, 2.2.5 – 2.2.7 of the [Application Handbook](#) for further details on each of the procedures.

Paid applications – Fees are payable if an application confers an exclusive capturable commercial benefit (ECCB), or to expedite the assessment. There is a waiting time of approximately 12 months for FSANZ to commence assessment of an unpaid application. See Part 2, 2.1.5 of the [Application Handbook](#) for further details on fees, payment of fees and amounts for each of the procedures.

Date received – The date FSANZ received the application. FSANZ then has 15 business days to make an administrative assessment of the application. This assessment determines whether an application meets the requirements set out in Part 3 of the Application Handbook and the procedure under which it should be assessed. If the application is accepted and following public notification, it is then placed on this Work Plan. This administrative assessment also determines the timetable for consideration of the application.

Administrative assessment completed – The date that the administrative assessment is completed, and a decision is made whether to accept the application. If the application is rejected or the applicant chooses to withdraw their application during the administrative assessment stage, it is not publicly notified. Only applications that are accepted and proposals that are prepared following the administrative assessment are publicly notified. If an application is rejected or withdrawn during the administrative assessment this does not prevent the applicant re-lodging the application at a later date. An administrative assessment is also completed for proposals.

Clock start and finish dates – Under the FSANZ Act, the FSANZ Board is required to make a decision on applications either within 9 months (general level or high level health claim variation procedures), 3 months (minor procedure) or 12 months (major procedure). For applications the statutory due date is indicated in this work plan once assessment commences.

Dates for key stages in the application and proposal process

- Commencement date of each stage - estimated at administrative assessment – this includes the timelines for key stages in the standard setting process estimated during the administrative assessment. These timeframes can vary for reasons such as resourcing, unforeseen complexity of the assessment, requests for further information from the applicant, delays in payments etc.
- Current date for each stage – once assessment commences – these are the projected timelines that are followed once the assessment begins (clock start). These can also change as the application or proposals progresses for the same reasons listed above for estimated timelines
- Completion date of each stage - as each stage is completed the actual date(s) is included.

For estimated and current dates, early refers to the first 10 days in the month, mid refers to the second 10 days and late refer to the following and vary depending on the number of days in the month is from the 21st until the end of the month.

Applications and proposals approved – these are the applications and proposals for which the draft variations is have been approved by the FSANZ Board, publicly notified and are awaiting consideration by Food Ministers.

Applications and proposals gazetted – these are applications and proposals for which Food Ministers have not sought a review and have been publicly notification and gazetted.

Applications and proposals under review – these are applications and proposals under review following a request from the Food Ministers. These are listed separately to other applications and proposals undergoing assessment as they are not subject to the same requirements..

Applications and proposals withdrawn, rejected, abandoned – these are applications and proposals that, following public notification, have been withdrawn, rejected or abandoned under the FSANZ Act.
