

Food Standards Work Plan –proposed standards development and variations to standards for applications and proposals

Information is current as of 21 January 2025

The Food Standards Work Plan provides visibility on the progress of applications and proposals to develop standards or variations to standards in the Australia New Zealand Food Standards Code. FSANZ is required to update this work plan at least every 3 months under the *Food Standards Australia New Zealand Act 1991* (FSANZ Act).

Estimated and current timelines for consultation on applications and proposals are included in this work plan. When consultation begins, FSANZ provides public notification on the website. You can subscribe to receive FSANZ's Notification Circular which includes notices that are required to be given to the public, submitters and appropriate government agencies under the FSANZ Act, including calls for submissions.

Applications and proposals are placed on the work plan after they are publicly notified. Their details are updated as the application or proposal progresses through the standards development process. Under the FSANZ Act, applicants can choose to pay fees to bring forward the start of the assessment of their application. However, FSANZ's consideration of a paid application must not displace an unpaid application or proposal in the workplan.

If you have any questions about the work plan please contact the Standards Management Officer, standards.management@foodstandards.gov.au.

Refer to the notes at the end of the work plan for further details on the content of the work plan, including application and proposal processes.

Application	Administrative assessment	Stage in standards development process	Commencement date – estimated at administrative assessment	Current date – once assessment commences	Completion date	Comments
A1269: Cultured Quail as a novel food Applicant Vow Group Pty Ltd Description To permit Vow cultured Quail as a novel food Paid application	Application received 24 January 2023	Commence assessment (clock start)	Late Feb 2023	Late Feb 2023	21/02/2023	Stop Clock applied 15/05 -15/06/2023 under s108 of the FSANZ Act.
	Administrative assessment completed.	1 st Call for submissions	Late Aug 2023	Mid Dec 2023 – Mid Feb 2023	11/12/2023 – 05/02/2024	
	Decision to accept application: 16 February2023	2 nd Call for submissions	Early Dec 2023	Early Nov- Mid Dec 2024	12/11/2024 – 12/01/2025	
		Board to complete approval	Late Feb 2024	Mid Mar 2025		
		Statutory due date (for approval)	Not known until assessment start	21/09/2024		
		Notification to Food Ministers' Meeting	Early Mar 2024	Late Mar 2025		
		Anticipated gazettal if no review requested	Mid May 2024	Early Jun 2025		

Application	Administrative assessment	Stage in standards development process	Commencement date – estimated at administrative assessment	Current date – once assessment commences	Completion date	Comments
<p>A1279: Lentinula edodes (Shiitake mushroom) mycelia as a processing aid</p> <p>Applicant Mycotechnology Inc.</p> <p>Description: To permit Lentinula edodes mycelia for use as a processing aid in the fermentation of pea and rice protein to produce a protein ingredient to be added to various foods.</p> <p>Unpaid application</p>	Application received 23 June 2023	Commence assessment (clock start)	Late Jul 2024	Late Jul 2024	31/07/2024	
	Administrative assessment completed.	Call for submissions	Late Nov 2024 – Late Jan 2025	Early Dec 2024 – Late Jan 2025	2/12/2025 – 28/1/2025	
	Decision to accept application: 13 July 2023	Board to complete Approval	Late Apr 2025	Late Apr 2025		
		Statutory due date (for approval)	Not known until assessment start	30 Apr 2025		
		Notification to Food Ministers' Meeting	Early May 2025	Early May 2025		
		Anticipated gazettal if no review requested	Mid Jul 2025	Mid Jul 2025		

Application	Administrative assessment	Stage in standards development process	Commencement date – estimated at administrative assessment	Current date – once assessment commences	Completion date	Comments
<p>A1288: Thermolysin from <i>Anoxybacillus caldiproteolyticus</i> Rokko as a processing aid</p> <p>Applicant IFF Australia Pty Ltd</p> <p>Description To permit thermolysin from <i>Anoxybacillus caldiproteolyticus</i> Rokko as a processing aid for protein hydrolysis.</p> <p>Unpaid application</p>	Application received 10 November 2023	Commence assessment (clock start)	Mid Dec 2024	Mid Dec 2024	18 Dec 2024	
	Administrative assessment completed.	Call for submissions	Early Apr – Mid May 2025	Early Apr – Mid May 2025		
	Decision to accept application: 29 November 2023	Board to complete Approval	Mid Sep 2025	Mid Sep 2025		
		Statutory due date (for approval)	Not known until assessment start	18 Sep 2025		
		Notification to Food Ministers' Meeting	Late Sep 2025	Late Sep 2025		
		Anticipated gazettal if no review requested	Early Dec 2025	Early Dec 2025		

Application	Administrative assessment	Stage in standards development process	Commencement date – estimated at administrative assessment	Current date – once assessment commences	Completion date	Comments
<p>A1299: Fructosyltransferase from <i>Aspergillus oryzae</i> as a processing aid</p> <p>Applicant Tate & Lyle Solutions USA LLC</p> <p>Description To permit fructosyltransferase from <i>Aspergillus oryzae</i> as a processing aid for the production of short-chain fructooligosaccharides (sc-FOS).</p> <p>Paid application</p>	Application received 2 April 2024	Commence assessment (clock start)	Early May 2024	Early May 2024	10/05/2024	Stop clock applied 14/6-22/7/2024 under s108 of the FSANZ Act.
	Administrative assessment completed.	Call for submissions	Early Sep – Late Oct 2024	Early Sep – Late Oct 2024	7/11/2024 - 5/12/2024	
	Decision to accept application: 19 April 2024	Board to complete Approval	Early Feb 2025	Early Feb 2025		
		Statutory due date (for approval)	Not known until assessment start	20/03/2025		
		Notification to Food Ministers' Meeting	Mid Feb 2025	Mid Feb 2025		
		Anticipated gazettal if no review requested	Late Apr 2025	Late Apr 2025		

Application	Administrative assessment	Stage in standards development process	Commencement date – estimated at administrative assessment	Current date – once assessment commences	Completion date	Comments
A1300 Vitamin K2 (as Menaquinone-7) as a permitted form of Vitamin K in FSMP. Applicant Novozymes Australia Ltd. Description To permit the use of Vitamin K2 (Menaquinone-7) as a permitted form of Vitamin K in food for special medical purposes (FSMP). Paid application	Application received 2 April 2024	Commence assessment (clock start)	Late-May 2024	Late May 2024	22/05/2024	
	Administrative assessment completed.	Call for submissions	Early Sep 2024	Early Sep 2024	13/09/2024 - 11/10/2024	
	Decision to accept application: 19 April 2024	Board to complete Approval	Early Feb 2025	Mid Dec 2024	11/12/2024	
		Statutory due date (for approval)	Not known until assessment start	24/02/2025		
		Notification to Food Ministers' Meeting	Mid Feb 2025	Late Dec 2025	19/12/2024	
		Anticipated gazettal if no review requested	Mid May 2025	Mid Mar 2025		

Application	Administrative assessment	Stage in standards development process	Commencement date – estimated at administrative assessment	Current date – once assessment commences	Completion date	Comments
<p>A1301: Triacylglycerol lipase from GM <i>Komagataella phaffii</i> as a processing aid</p> <p>Applicant Danstar Ferment AG, an affiliate of Lallemand Inc.</p> <p>Description To permit triacylglycerol lipase from genetically modified <i>Komagataella phaffii</i> as a processing aid in bread and bakery products.</p> <p>Paid application</p>	Application received 9 April 2024	Commence assessment (clock start)	Early-May 2024	Mid May 2024	13/05/2024	
	Administrative assessment completed.	Call for submissions	Late-Aug – Early Oct 2024	Late-Aug – Early Oct 2024	6/09/2024 - 18/10/2024	
	Decision to accept application: 29 April 2024	Board to complete Approval	Early Feb 2025	Early Feb 2025		
		Statutory due date (for approval)	Not known until assessment start	13/02/2025		
		Notification to Food Ministers' Meeting	Mid Feb 2025	Mid Feb 2025		
		Anticipated gazettal if no review requested	Early May 2025	Late Apr 2025		

Application	Administrative assessment	Stage in standards development process	Commencement date – estimated at administrative assessment	Current date – once assessment commences	Completion date	Comments
A1302: Food derived from insect-protected corn line MZIR260 Applicant Syngenta Australia Pty Ltd Description To seek approval for the sale and use of food derived from corn line MZIR260, genetically modified for protection from insect pests. Paid application	Application received 8 May 2024	Commence assessment (clock start)	Late Jun 2024	Late Jun 2024	12/06/2024	
	Administrative assessment completed.	Call for submissions	Late Oct – Early Dec 2024	Late Oct – Early Dec 2024	22/10/2024-4/12/2024	
	Decision to accept application: 30 May 2024	Board to complete Approval	Mid Mar 2025	Mid Mar 2025		
		Statutory due date (for approval)	Not known until assessment start	12/03/2025		
		Notification to Food Ministers' Meeting	Late Mar 2025	Late Mar 2025

<p>A1323: Food derived from insect-protected soybean line COR23134</p> <p>Applicant Corteva Agriscience Australia Pty Ltd</p> <p>Description To seek approval for the sale and use of food derived from soybean line COR23134, genetically modified for protection from lepidopteran insect pests.</p> <p>Paid application</p>	Application received 6 December 2024	Commence assessment (clock start)	Early December 2024	Early December 2024	9/12/2024	
	Administrative assessment completed.	Call for submissions	Late Jan – Mid March 2025	Late Feb – Early Apr 2025		
	Decision to accept application: 6 December 2024	Board to complete Approval	Mid Jun 2025	Mid Jun 2025		
		Statutory due date (for approval)	Not known until assessment start	9/9/2025		
		Notification to Food Ministers' Meeting	Late Jun 2025	Late Jun 2025		
		Anticipated gazettal if no review requested	Mid Sep 2025	Mid Sep 2025		

Proposal	Administrative assessment	Stage in standards development process	Current date– once assessment commences	Completion date	Comments
P1010 Review of Formulated Supplementary Sports Foods Description To review Standard 2.9.4 – Formulated Supplementary Sports Foods (FSSF) of the Australia New Zealand Food Standards Code	Proposal prepared. Decision to prepare proposal: 14 June 2019	Commence assessment (clock start)	Mid Jun 2019	14/06/2019	Call for Data: - technical, toxicological and nutritional data 15/07/21 to 09/09/21. Consultation will be complemented by targeted consultation with key stakeholders.
		2023 Consultation Paper 1	Late Jan 2023	25/01/2023 – 09/03/2023	FSANZ has considered comments received in the consultation papers, which will inform the first formal CFS.
		2023 Consultation Paper 2	Late Jun 2023	31/07/2023 – 4/09/2023	
		1 st Call for submissions	TBC		Firm timing for release of the 1 st CFS is yet to be determined. FSANZ is cognisant of the interrelation of this work with Proposal P1056 – Caffeine Review.
		2 nd Call for submissions	TBC		
		Board to complete Approval	TBC		
		Notification to Food Ministers' Meeting	TBC		
		Anticipated gazettal if no review requested	TBC		

Proposal	Administrative assessment	Stage in standards development process	Current date– once assessment commences	Completion date	Comments
P1024 Revision of the Regulation of Nutritive Substances & Novel Foods Description To develop an alternative framework for the regulation of nutritive substances and novel foods in the Code.	Proposal prepared. Decision to prepare proposal: 13 December 2012	Commence assessment (clock start)	Mid Dec 2012	16/12/2012	On hold pending FSANZ Act review
		1 st Call for submissions	Mid Nov 2015 – late Feb 2016	04/12/2015 – 24/03/2016	
		2 nd Call for submissions	Early Jun – mid Jul 2017	16/06/2017 – 28/07/2017	
		Board to complete Approval	TBC		
		Notification to Food Ministers' Meeting	TBC		
		Anticipated gazettal if no review requested	TBC		

Proposal	Administrative assessment	Stage in standards development process	Current date– once assessment commences	Completion date	Comments
P1047 Review of regulatory nutrient reference values Description To review and update the regulatory nutrient reference values in the Australia New Zealand Food Standards Code in light of the 2006 and 2017 Australia/New Zealand nutrient reference values.	Proposal prepared. Decision to prepare proposal: 28 March 2018	Commence assessment (clock start)	Late Aug 2018	28/03/2018	Progress delayed due to other priority work.
		Call for submissions	TBC		
		Board to complete Approval	TBC		
		Notification to Food Ministers' Meeting	TBC		
		Anticipated gazettal if no review requested	TBC		

Proposal	Administrative assessment	Stage in standards development process	Current date– once assessment commences	Completion date	Comments
P1049 Carbohydrate and sugar claims on alcoholic beverages Description To clarify the Food Standards Code with respect to claims about carbohydrate content and the components of carbohydrate (such as sugar) in relation to alcoholic beverages.	Proposal prepared. Decision to prepare proposal: 17 August 2018	Commence assessment (clock start)	Late Aug 2018	29/08/2018	
		Call for submissions	Late Jul – early Sep 2023	31/07/2023 – 4/09/2023	Targeted consultation held late July 2022.
		Board to complete Approval	Mid Mar 2025		
		Notification to Food Ministers' Meeting	Late Mar 2025		
		Anticipated gazettal if no review requested	Early Jun 2025		

Proposal	Administrative assessment	Stage in standards development process	Current date– once assessment commences	Completion date	Comments
P1055 Definitions for gene technology and new breeding techniques. Description To revise and update the definitions in the Code for 'food produced using gene technology' and 'gene technology' to make them clearer and to better reflect existing and emerging genetic technologies including new breeding techniques.	Proposal prepared. Decision to prepare proposal: 20 February 2020	Commence assessment (clock start)	Late Feb 2020	28/02/2020	
		1 st Call for submissions	Early Oct – late Dec 2021	07/10/2021 – 03/12/2021	
		2 nd Call for submissions	Mid 2024	30/07/2024 – 10/09/2024	
		Board to complete Approval	Mid Jun 2025		
		Notification to Food Ministers' Meeting	Late Jun 2025		
		Anticipated gazettal if no review requested	Early Sep 2025		

Proposal	Administrative assessment	Stage in standards development process	Current date– once assessment commences	Completion date	Comments
P1056 Caffeine Review Description Review of permissions for caffeine in sports foods and general foods and consideration of the risk it poses to sensitive subpopulations.	Proposal prepared. Decision to prepare proposal: 14 December 2020	Commence assessment (clock start)	Early Jun 2021	01/06/2021	
		1 st Call for submissions	Mid Dec 2022	19/12/2022 – 13/02/2023	
		2 nd Call for submissions	Mid-late Feb 2025		
		Board to complete Approval	TBC		
		Notification to Food Ministers' Meeting	TBC		
		Anticipated gazettal if no review requested	TBC		

Proposal	Administrative assessment	Stage in standards development process	Current date – once assessment commences	Completion date	Comments
P1058 Nutrition labelling about added sugars Description To consider including added sugars information in the nutrition information panel.	Proposal prepared. Decision to prepare proposal: 14 April 2022	Commence Assessment (Clock start)	Mid Apr 2022	14/04/2022	
		Call for submissions	TBC		Consumer testing and research completed. Proposal on hold to progress a holistic review of the nutrition information panel.
		Board to complete Approval	TBC		
		Notification to FMM	TBC		
		Anticipated gazettal if no review requested	TBC		

Proposal	Administrative assessment	Stage in standards development process	Current date – once assessment commences	Completion date	Comments
<p>M1022 Maximum Residue Limits (2023)</p> <p>Description To consider varying certain maximum residue limits (MRLs) for residues of specified agricultural and veterinary (agvet) chemicals that may occur in food commodities.</p>	<p>Proposal prepared.</p> <p>Decision to prepare proposal: 3 July 2023</p>	Commence Assessment (Clock start)	Early Dec 2023	04/12/2023	
		Call for submissions	Early Jul – Late Aug 2024	29/10/2024	
		Board to complete Approval	Early Feb 2025		
		Notification to FMM	Mid Feb 2025		
		Anticipated gazettal if no review requested	Late Apr 2025		

Proposal	Administrative assessment	Stage in standards development process	Current date– once assessment commences	Completion date	Comments
P1059 Energy labelling on alcoholic beverages Description To consider amending the Code to provide energy (kilojoule) labelling information on alcoholic beverages.	Proposal prepared. Decision to prepare proposal: 27 April 2022	Commence assessment (clock start)	27 Apr 2022	27/04/2022	
		Call for submissions	Mid Jan – Late Feb 2023	16/01/2023 – 20/03/2023	Targeted consultation held late July 2022, late November 2023 and late November 2024.
		Board to complete Approval	Late Mar 2025		
		Notification to Food Ministers' Meeting	Early Apr 2025		
		Anticipated gazettal if no review requested	Mid Jun 2025		

Proposal	Administrative assessment	Stage in standards development process	Current date – once assessment commences	Completion date	Comments
<p>P1060 Egg Food Safety & Primary Production Requirements</p> <p>Description To consider amending the Australia New Zealand Food Standards Code to provide new and/or amended food safety and primary production requirements for eggs and egg products</p>	<p>Proposal prepared.</p> <p>Decision to prepare proposal: 20 May 2022</p>	Commence assessment (clock start)	Late May 2022	20/05/2022	
		Call for submissions	1 st quarter 2025		
		Board to complete Approval	2 nd quarter 2025		
		Notification to Food Ministers' Meeting	2 nd quarter 2025		
		Anticipated gazettal if no review requested	3 rd quarter 2025		

Applications and proposals approved from 1 July 2024 – 30 June 2025

Application / Proposal	Applicant	Description	Date considered by FSANZ Board	Outcome
A1260 2-methyloxolane as a processing aid	Pennakem Europa, France	To permit 2-methyloxolane as an extraction solvent processing aid.	30/10/2024	Approved

Applications gazetted from 1 July 2024 – 30 June 2025

Application / Proposal	Applicant	Description	Date gazetted
A1257 Australian native bee honey	Australian Native Bee Association	To include a definition, compositional requirements and a requirements for a prescribed name for honey produced by stingless bees native to Australia.	22/07/2024
A1280 Food derived from herbicide-tolerant and insect-protected corn line DAS1131	Corteva Agriscience Australia Ltd	To seek approval for the sale and use of food derived from corn line DAS1131, genetically modified for herbicide-tolerance and protection from insect pests.	22/07/2024
A1261 Irradiation – increase in maximum energy level	Steritech Pty Ltd	To increase the maximum permitted energy level of machines generating X-rays for irradiating food from 5 to 7.5 megaelectronvolts provided that the X-ray target is made of tantalum or gold.	15/08/2024
A1281 Food derived from herbicide-tolerant and insect-protected corn line DP910521	Corteva Agriscience Australia Pty Ltd	To seek approval for the sale and use of food derived from corn line DP910521 genetically modified for herbicide tolerance and protection from insect pests.	15/08/2024
A1282 Subtilisin from GM <i>Bacillus subtilis</i> as a processing aid	Danisco Australia (IFF)	To permit the use of subtilisin from genetically modified <i>Bacillus subtilis</i> as a processing aid. The intended use is for protein processing. Typical processes which may employ subtilisin include baking, dairy, egg, meat and fish processing.	15/08/2024

Application / Proposal	Applicant	Description	Date gazetted
A1283 2'-FL from GM <i>Corynebacterium glutamicum</i> in infant formula products	Advanced Protein Technologies Corp.	To permit a new genetically modified source organism <i>Corynebacterium glutamicum</i> for the production of 2'-fucosyllactose (2'-FL) for use in infant formula products.	15/08/2024
A1287 Food derived from short-stature corn line MON94804	Bayer CropScience Pty Ltd	To seek approval for the sale and use of food derived from corn line MON94804, genetically modified to have reduced overall plant height.	17/10/2024
A1247 D-allulose as a novel food	Samyang Corporation	To permit D-allulose manufactured by an enzymatic conversion of fructose to D-allulose using <i>Microbacterium foliorum</i> SYG27B-MF containing allulose-3-epimerase.	29/10/2024
A1284 Triacylglycerol lipase from GM <i>Trichoderma reesei</i> as a processing aid	AB Enzymes GmbH	This application seeks permission for triacylglycerol lipase from a genetically modified strain of <i>Trichoderma reesei</i> to be used as a processing aid in baking and cereal-based processes.	29/10/2024
A1260 2-methyloxolane as a processing aid	Pennakem Europa, France	To permit 2-methyloxolane as an extraction solvent processing aid.	13/01/2025
A1289 Food derived from disease-resistant, low-reducing sugars and reduced browning potato line BG25.	SPS International Inc.	To seek approval for the sale and use of food derived from potato line BG25, genetically modified to have disease-resistance, low-reducing sugars and reducing browning.	13/01/2025
A1291 Glucoamylase from GM <i>Aspergillus niger</i> (gene donor: <i>Gloeophyllum sepiarium</i>) as a processing aid	Novozymes Japan Ltd.	To permit glucoamylase from <i>Aspergillus niger</i> to be used as a processing aid in brewing process, baking processes, starch processing and distilled alcohol processing.	13/01/2025

Proposals gazetted from 1 July 2024 – 30 June 2025

Proposal	Description	Date Gazetted
P1028 Infant formula	To review the regulatory requirements for infant formula products in the Australia New Zealand Food Standards Code	13/09/2024
P1063 Code Revision (2024) – Added Sugar(s) Claims	To amend the Code to remove “sugars”, and amend the table entry dealing with “Sugar or sugars” in section S4-3.	29/10/2024

Unpaid applications – assessment waiting to commence

Application	Applicant	Description	Anticipated commencement
A1292 Phospholipase C from GM <i>Bacillus licheniformis</i> as a processing aid	Novozymes Japan. Ltd.	To permit Phospholipase C from GM <i>Bacillus licheniformis</i> as a processing aid in degumming of fats and oils.	Late Jan 2025
A1293 Phosphoinositide PLC from GM <i>Bacillus licheniformis</i> as a processing aid	Novozymes Japan Ltd.	To permit Phosphoinositide PLC from GM <i>Bacillus licheniformis</i> as a processing aid in degumming of fats and oils.	Mid Feb 2025
A1294 <i>Moringa oleifera</i> as a novel food	Noosa Organics Pty Ltd	To permit the sale of <i>Moringa oleifera</i> leaf (fresh and dried), immature (green) pods and seed oil as food and food ingredients in Australia and New Zealand.	Late Feb 2025
A1304 Endo-1,4-beta-xylanase from GM <i>Bacillus licheniformis</i> (gene donor: <i>Chryseobacterium cucumeris</i>) as a processing aid	Novozymes Australia Pty Ltd	To permit endo-1,4-beta-xylanase from a genetically modified strain of <i>Bacillus licheniformis</i> to be used as a processing aid in the production of distilled alcohol and starch and gluten fractions.	Late Jun 2025
A1305 Alpha-amylase (protein engineered) from GM <i>Bacillus licheniformis</i> as a processing aid	IFF Austyralia Pty Ltd	To permit alpha-amylase (protein engineered) from a genetically modified strain of <i>Bacillus licheniformis</i> to be used as a processing aid in carbohydrate processing to produce glucose syrups and other starch hydrolysates in potable alcohol production.	Early Jul 2025
A1306 Chitosan from <i>Agaricus bisporus</i> as a processing aid	AB Biotek	To permit a new source microorganism <i>Agaricus bisporus</i> for chitosan to be used as a processing aid for wine, beer, cider, spirits and other alcoholic beverages.	Mid Jul 2025
A1321: Acetolactate decarboxylase from GM <i>Bacillus licheniformis</i> as a processing aid	Novozymes Australia Pty Ltd	To permit acetolactate decarboxylase from a genetically modified strain of <i>Bacillus licheniformis</i> to be used as a processing aid in brewing processes and other cereal based beverage processes and beverage alcohol (distilling) processes.	Mid Nov 2025

Applications and proposals withdrawn, rejected or abandoned from 1 July 2024 – 30 June 2025

Application / Proposal	Applicant	Description	Date publicly notified
A1290 Citicoline as a nutritive substance for use in formulated caffeinated beverages	Kyowa Hakki Bio Co. Ltd.	To permit the addition of citicoline as a nutritive substance for addition to formulated caffeinated beverages.	12/08/2024
P290 Food Safety Programs for Catering Operations to the General Public	FSANZ	To amend Standard 3.2.1 to make food safety programs mandatory in catering operations serving food to the general public.	2/10/2024
A1309 Specification for lacto-N-tetraose (LNT) from GM <i>Escherichia coli</i> K-12 in infant formula products	FrieslandCampina Ingredients B.V	To amend the specification for lacto-N-tetraose (LNT) sourced from a permitted genetically modified source of <i>Escherichia coli</i> K-12	16/11/2024
A1312 2'-FL from GM <i>Escherichia coli</i> BL21 in infant formula products	Synaura Biotechnology (Shanghai) Co., Ltd	To permit a new source of 2'-fucosyllactose (2'-FL) for use as a nutritive substance in infant formula products	13/01/2025

Notes – application and proposal work plan details

Application or Proposal – Applications are formal requests to amend the Australia New Zealand Food Standards Code (the Code). Proposals are prepared by FSANZ to consider amendments to the Code. Each application or proposal is allocated a sequential identification number. Applications commence with an 'A' whilst proposals commence with either a 'P' or 'M' (maximum residue limits).

Description – General description of the purpose of the application or proposal.

Urgent applications or proposals – Section 95 applications and proposals can be declared urgent under Division 4 of the FSANZ Act. Under these provisions, FSANZ is required to assess the variation to the Code within 12 months of the date of effect of the gazetted variation. FSANZ may then either re-affirm its original decision or prepare a proposal for a further variation or replacement variation.

Procedure – the procedure that applies to an application or proposal is determined at the administrative assessment stage and is based on the estimated maximum number of hours to complete the assessment for an application or proposal. See Part 2, 2.2.5 – 2.2.7 of the [Application Handbook](#) for further details on each of the procedures.

Paid applications – Fees are payable if an application confers an exclusive capturable commercial benefit (ECCB), or to expedite the assessment. There is a waiting time of approximately 12 months for FSANZ to commence assessment of an unpaid application. See Part 2, 2.1.5 of the [Application Handbook](#) for further details on fees, payment of fees and amounts for each of the procedures.

Date received – The date FSANZ received the application. FSANZ then has 15 business days to make an administrative assessment of the application. This assessment determines whether an application meets the requirements set out in Part 3 of the Application Handbook and the procedure under which it should be assessed. If the application is accepted and following public notification, it is then placed on this Work Plan. This administrative assessment also determines the timetable for consideration of the application.

Administrative assessment completed – The date that the administrative assessment is completed, and a decision is made whether to accept the application. If the application is rejected or the applicant chooses to withdraw their application during the administrative assessment stage, it is not publicly notified. Only applications that are accepted and proposals that are prepared following the administrative assessment are publicly notified. If an application is rejected or withdrawn during the administrative assessment this does not prevent the applicant re-lodging the application at a later date. An administrative assessment is also completed for proposals.

Clock start and finish dates – Under the FSANZ Act, the FSANZ Board is required to make a decision on applications either within 9 months (general level or high level health claim variation procedures), 3 months (minor procedure) or 12 months (major procedure). For applications the statutory due date is indicated in this work plan once assessment commences.

Dates for key stages in the application and proposal process

- Commencement date of each stage - estimated at administrative assessment – this includes the timelines for key stages in the standard setting process estimated during the administrative assessment. These timeframes can vary for reasons such as resourcing, unforeseen complexity of the assessment, requests for further information from the applicant, delays in payments etc.
- Current date for each stage – once assessment commences – these are the projected timelines that are followed once the assessment begins (clock start). These can also change as the application or proposals progresses for the same reasons listed above for estimated timelines
- Completion date of each stage - as each stage is completed the actual date(s) is included.

For estimated and current dates, early refers to the first 10 days in the month, mid refers to the second 10 days and late refer to the following and vary depending on the number of days in the month is from the 21st until the end of the month.

Applications and proposals approved – these are the applications and proposals for which the draft variations is have been approved by the FSANZ Board, publicly notified and are awaiting consideration by Food Ministers.

Applications and proposals gazetted – these are applications and proposals for which Food Ministers have not sought a review and have been publicly notification and gazetted.

Applications and proposals under review – these are applications and proposals under review following a request from the Food Ministers. These are listed separately to other applications and proposals undergoing assessment as they are not subject to the same requirements..

Applications and proposals withdrawn, rejected, abandoned – these are applications and proposals that, following public notification, have been withdrawn, rejected or abandoned under the FSANZ Act.
