Hi Glen,

Thanks for your email. Our market access team is aware and has been liaising with the Department of Agriculture also. We have provided a copy of the slides and copy of MPI's toxicology view in confidence. Our view aligns with that of FSANZ. I provide to you here. Please do not circulate more widely.

Further, the Minister has just received a letter from Friends of the Earth regarding this matter. It references FSANZ's view. We will be in touch in due course (we have a number of staff out this week). This is due 17 July.

Thanks
[REDACTED]

Thanks Glen

Would you please copy [REDACTED] in on anything. She has to date coordinated activities at our end.

Hi [REDACTED]

We report some interest from Chinese authorities in the weekends press coverage on infant formula and nanoparticles. We have provided information via the Dept of Ag and water Resources and can supply further detail should MPI require it.

Cheers

Glen
