

Attachment 1 to the guide - Harmonisation request template - Technical information requirements  
Refer to Section 3.2-3.6 of the Guide  
[Import data for questions o\) i and o\) ii may be provided on a separate tab.](#)

Requested chemical <small>(Refer to Section 3.2 and Attachment 1, Item 2)</small>			Requested commodity <small>(Refer to Section 3.3 and Attachment 1, Item 3)</small>			Relevant MRLs <small>(Refer to Section 3.4 and Attachment 1, Item 4)</small>						Import Data Requirements <small>(Refer to Section 3.5 and Attachment 1, Item 5)</small>				Data to support DEA <small>(Refer to Section 3.6 and Attachment 1, Item 6)</small>	
a) Name of the chemical to be considered	b) Relevant ADI for this chemical and source of this information	c) Relevant ARfD for this chemical (if available) and source of this information	d) Name of the requested commodity or food group, as described by Codex and/or the Code	e) Codex Code for commodity or food group (if relevant)	f) Country or region that the raw agricultural commodity is being produced (non-Codex requests only)	g) Requested MRL in mg/kg	h) Origin/source of requested MRL	i) Commodity or food group this MRL applies to (non-Codex requests only)	j) Reference link/s to published MRL	k) Current status in Schedule 20-3 of Standard 1.4.2	l) Current status for this MRL in Codex (non-Codex requests only)	m) Commodity or commodities intended to be imported using this MRL, including any processed commodities associated with this request.	n) Is the requested commodity (or commodities) currently being imported into Australia? (y/n). Include details on form, potential for import and exporting country (as required)	o) i. Information on volumes of individual commodities imported to Australia over the past 3-5 year period. For requests to align with MRLs from a source other than Codex, import data should be provided from the country/region in which the MRL is established. Tonnes preferred over dollars. Include source of this information	o) ii. Other details to support this request and enable the DEA to take market share of imported produce into account where relevant. May include: size of Australian market (by volumes or by amount in dollars will be accepted if volume data is not available); details on the Australian market and details on cost impacts of a lack of harmonised MRL. Include sources for this information.	p) Highest Residue (HR) and Supervised Trial Median Residue (STMR), or equivalent	q) Link to the publication of the HR and STMR data, or equivalent
Avilamycin	0-2 mg/kg body weight (JECFA)  1 mg/kg bodyweight (OCS)	Not set (JECFA)  Not set (OCS)	Pig fat/skin	MF 0818	n/a	0.2	Codex	n/a	<a href="http://www.codexalimentarius.org/standards/vetdrug-s/veterinary-drug-detail/en/?d_id=87">http://www.codexalimentarius.org/standards/vetdrug-s/veterinary-drug-detail/en/?d_id=87</a>	Commodity not listed	n/a	Pig fat	Yes	Pig fat commodities imported: 4396 tonnes (2012-15) (Australian Bureau of Statistics)	Australia Pigmeat consumption (2004-2009) = 131 kilograms carcase weight per Capita Australian Pig Annual 2012-2013 (Data source FAOstat)	HR and STMR - not available	Not applicable
Avilamycin	0-2 mg/kg body weight (JECFA)  1 mg/kg bodyweight (OCS)	Not set (JECFA)  Not set (OCS)	Pig meat	MM 0818	n/a	0.2	Codex	n/a	<a href="http://www.codexalimentarius.org/standards/vetdrugs/veterinary-drug-detail/en/?d_id=87">http://www.codexalimentarius.org/standards/vetdrugs/veterinary-drug-detail/en/?d_id=87</a>	Commodity not listed	n/a	Meat of swine	Yes	Pig meat commodities imported: 592280 tonnes (2012-15) (Australian Bureau of Statistics)		HR and STMR - not available	Not applicable
Avilamycin	0-2 mg/kg body weight (JECFA)  1 mg/kg bodyweight (OCS)	Not set (JECFA)  Not set (OCS)	Pig kidney	MO 1284	n/a	0.2	Codex	n/a	<a href="http://www.codexalimentarius.org/standards/vetdrug-s/veterinary-drug-detail/en/?d_id=87">http://www.codexalimentarius.org/standards/vetdrug-s/veterinary-drug-detail/en/?d_id=87</a>	Commodity not listed	n/a	Edible offal of swine	Yes	Pig offal (excluding liver) imported: 45 tonnes (2012-15) (Australian Bureau of Statistics)		HR and STMR - not available	Not applicable
Avilamycin	0-2 mg/kg body weight (JECFA)  1 mg/kg bodyweight (OCS)	Not set (JECFA)  Not set (OCS)	Pig liver	MO 1285	n/a	0.3	Codex	n/a	<a href="http://www.codexalimentarius.org/standards/vetdrug-s/veterinary-drug-detail/en/?d_id=87">http://www.codexalimentarius.org/standards/vetdrug-s/veterinary-drug-detail/en/?d_id=87</a>	Commodity not listed	n/a	Edible offal of swine	Yes	Pig liver commodity imported: 17 tonnes (2012-15) (Australian Bureau of Statistics)		HR and STMR - not available	Not applicable
