RE: Submission on A1193 Irradiation of all fresh fruit and vegetables

Please do not allow this bill to be passed..

Our right to really fresh food is eroded on all sides.. with packaging - freezing and long term storage.. do not allow this bill to become law.

One of the joys of living in Australia is the freedom to buy really fresh produce.. if this becomes a law - farmers markets, and other small holdings will suffer badly as will the quality of our food all in the name of 'phytosanitary'. for goodness sake what is that!!!

I am perfectly capable of washing my produce.. and am responsible for my own cleanliness.. irradiating fresh produce is not going to make any of us more healthy.

Please deny this ridiculous bill.

Your sincerely
