RE: "Application A576 – Labelling of Alcoholic Beverages with a  
Pregnancy Health Advisory Label"

I wish to endorse the submission made by ALAC to place warning labels regarding  
the dangers of drinking when pregnant on alcohol containers.

It is reprehensible that a widely available and highly promoted toxic substance  
currently does not carry health warnings. There is a strong moral and ethical  
obligation to inform the public about the health risks of alcohol that transcends and  
outweighs any commercial imperatives or perceived value about the effectiveness  
of doing so.

Yours faithfully
