

**Application A576 – Labelling of Alcoholic Beverages with a Pregnancy Health  
Advisory Label  
IAR**

**Summary**

The NSW Food Authority (the Authority) supports progression of the application to draft assessment.

**Specific issues**

Further consideration of this Application is supported by the Authority as it addresses a recognised public health issue. At this stage the NSW Food Authority does not have information to assist with providing comments on the questions included with the IAR. However, the Authority recognises that answering these questions is imperative in the further assessment of this application.
