**Subject:** SUBMISSION RE CLARITY: PROPOSAL P1013 CODE MAINTENANCE IX  
ASSESSMENT REPORT

**Categories:** Blue Category

Dear Sir / Madam

I note that FSANZ regularly seeks to amend the *Australia New Zealand Food Standards Code* (the Code) to maintain its currency and clarity.

### Submission re: Clarity

I am a Food Technologist in NZ who began using the NZ Food Regulations which were quite a simple easy to use booklet and over the years seen the change to a web version I would describe more as a database of documents.

I would like to propose with respect to Clarity that A "Book" format is much easier to follow and use.

With the advance of the IPAD and ebooks I propose that it would be quite easy to use the web information to either update as you go, or publish at regular intervals, a "Revised eBook" which incorporates all the gazetted amendments, for example, *Australia New Zealand Food Standards Code 2011*

Kind regards

Janet Anderson

PS. As this is a personal observation /suggestion to help the industry I do not have the information requested below.

Information providing details of potential costs and benefits of the proposed change to the Code from stakeholders is highly desirable. Claims made in submissions should be supported wherever possible by referencing or including relevant studies, research findings, trials, surveys etc. Technical information should be in sufficient detail to allow independent scientific assessment.
