Subject: Companion in Outdoor Dining Areas

Dear Sir/Madam

Assessment Report No.: P1018

Report Title: Companion Dogs in Outdoor Dining Areas

We fully support companion dogs in outdoor dining areas and we submit that there are significant social benefits for both dogs, their owners and other patrons in outdoor dining areas. With restaurateurs' consent, we have been taking a dog to outdoor dining areas for many years and have never experienced any adverse reaction from fellow diners and waiting staff alike. In fact the opposite has been the case and we have enjoyed conversations with many people as a result of our companion dog.

Yours truly

Malcolm & Ros Saltmarsh
