Subject: Re: Dogs being allowed at Cafe

To Whom It May Concern,

In other words, dogs should not be allowed for the following reasons.

- 1) I don't recall Members of The Community being asked for their opinions especially the area this is proposed for, as you cannot really have in say Surfers?
- 2) Dog owners wouldn't allowed their dogs to eat next to them at the table at home, so why should they be allowed to do so at cafe's especially when there are more people and other dogs around, which could lead to fights and is a hygiene and safety issue.
- 3) Who is going to look after the dog, when the owner is going to pay the bill or go to the toilet and there is no one else minding the dog?
- 4) I wouldn't be allowed to bring other pets with me when I dine out, so why should dog owners be the ones who are allowed to bring their dogs?
- 5) etc etc

Regards

Kenneth

Re: <http://www.couriermail.com.au/news/queensland/dogs-to-be-allowed-in-gold-coast-cafes/story-e6freoof-1226393360329>

To Who It May Concern,

The Courier Mail mentioned companion dogs, but is just companion dogs for hard of seeing and hear members of the community or is it all dogs?

And before the vote did Council ask members of the community or just dog owners, even those apart from dog owners all within The Community well be effected which is due to hygiene and safety and choice if other diners should want to dine when a dog is siting right next to them?

Also from the sound of things Cr Tate in saying "for dog owners to make decisions where they eat and have their coffee" Cr Tate wants dog owners to take their dogs anywhere within the cafe not just outdoor dining areas and maybe with this decision then I should be allowed to take a friend snake to the cafe as well?

Hey if people can take their dogs to cafe, why can't I take a snake?

But those who want to be allow their dogs with them, do they have their dogs eating with them next to the dining table at home?

No?

Then why should they be allowed to have dogs sitting next to them at cafe and who is going to look after the dogs, if the owners has to go and pay the bills or they have to go to the toilet?

Regards

Kenneth Vaughan
