

Comments from Department of Health, Victoria

Due date of submission: 4 July 2014

The Victorian Departments of Health, and Environment and Primary Industries, and PrimeSafe welcome the opportunity to provide comments on Proposal P1033, a proposal to update references and correct minor typographical and formatting errors in the *Australia and New Zealand Food Standards Code* using the minor assessment procedure.

The department is satisfied that the matters raised in P1033 are appropriate to be dealt with under a Code Maintenance proposal, and therefore supports its progression.

It is suggested that FSANZ establishes an annual scheduled process so that Code maintenance issues are notified to FSANZ in a timely manner?
