**Re: Proposal P1037 Amendments associated with Nutrition Content & Health Claims**

The New Zealand Nurses Organisation (NZNO) welcomes the opportunity to comment on the above consultation. NZNO has consulted with members and staff, particularly members the College of Primary Health Care Nurses and College of Children and Young Persons Nurses, Te Rūnanga o Aotearoa, representing our Māori nurse members, and nursing, research and policy advisers.

NZNO **does not support** the proposed exemptions from claim requirements in the Food Standards Code for trademarked elements of the Health Star Rating System. We do not believe that the star rating system is at all duplicative of the nutrition information panel; the purpose and the information are very different for each. The star rating system is one form of a simplified consumer guide, but does not provide the detailed nutritional information needed and wanted by many consumers, including those with significant health issues. The star rating system should be an adjunct to the scientific information panel, rather than replace it. Such systems are a useful marketing advice but because they are inherently simplistic and do not contain all the information, they are prone to misinterpreted and may lead to adverse consequences.
